ESSENCE OF ESMUN

“We have the tools, we have the wealth. All we need is the will.”
— António Guterres

At ESMUN 2026, we invite delegates to move beyond observing the world, and step into the responsibility of reshaping it. We live in a time where invisible financial networks are disrupting economies, conflicts are driven by shifting global alliances, and identities are shaped by forces far beyond borders. The systems we once trusted are no longer keeping pace with the realities we face.

To recode the future is not a choice, it is a necessity. It demands the courage to challenge outdated structures, rethink inherited narratives, and redesign systems that are equitable, resilient, and relevant.

This year's agendas confront the world as it exists today, from geopolitical tensions and economic disparity, to the influence of media on identity, to criminal networks that operate beyond visibility, and policies that shape the lives of millions. These are not distant concerns, they are present, pressing, and personal. At ESMUN 2026, debate is not the destination, it is the starting point. Each committee is a space to question what exists, each delegate is a voice that can shape what comes next. Because the future is not given, it is created, by those who choose to engage with it.

Welcome to a space where systems are challenged, ideas are reimaged, and the future is recoded.
Welcome to ESMUN 2026.

RECODING THE FUTURE

PRINCIPAL'S ADDRESS

“The future depends on what we choose to question, challenge, and create today.”

It gives me immense pride to welcome you to the Third Edition of the EuroSchool Model United Nations Conference - ESMUN'26. Over the years, ESMUN has grown into a powerful student-led platform that reflects the values of leadership, critical inquiry, collaboration, and global citizenship that we strive to nurture at EuroSchool Thane.

This year's theme, “Recoding the Future,” reminds us that we live in rapidly evolving world where systems, institutions, and ideas are constantly being tested. The leaders of tomorrow must therefore be prepared not only to understand these challenges, but also to think boldly, question intelligently, and participate actively in shaping solutions that matter.

ESMUN provides young minds with a unique opportunity to engage with pressing global realities, exchange ideas, strengthen perspective, and experience the power of dialogue and diplomacy in action. It is heartening to witness our students continue to build this platform with such ownership, vision, and commitment.

I congratulate every student, teacher, and stakeholder who has contributed towards bringing ESMUN'26 to life, and I extend my very best wishes to all delegates as they step forward to deliberate, lead, and create meaningful impact.

The future is never inherited. It is shaped by those willing to reimagine it.

Dr. Jyotsna Mayadas
Senior Principal
EuroSchool Thane
